## CANAPE Winter Newsletter - Celebrating our achievements

Happy World Wetlands Day 2021! Today marks the 50th Anniversary of the Ramsar Convention on Wetlands.

Despite lockdown, the CANAPE project is pressing on and continuing to deliver our exciting goals. Meanwhile we have been celebrating and reflecting on what we have achieved so far in the first 3 years of the project.

2021 is when many of our sites near completion. Throughout the year we will be building up to a conference to demonstrate and present the work we have done throughout the project.

This will be a hybrid event to manage risks around the pandemic, but we are hoping to see as many of you as safely possible in person. Keep your eyes peeled for a save the date!

### CANAPE Wins Gold

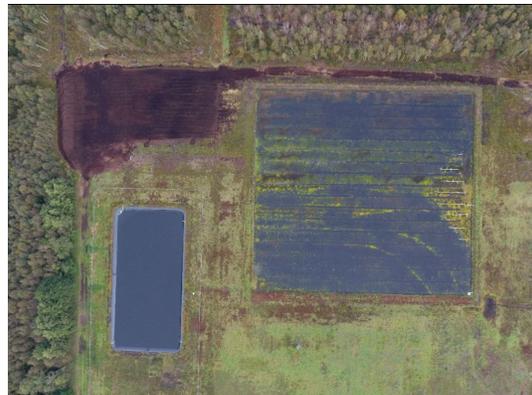

The Green Organisation has awarded CANAPE a gold prize in its annual Green Apple environmental awards. [This was awarded in the category for Carbon Reduction projects.](#)

The Green Apple Environment Awards were established in 1994 as an annual campaign to recognise, reward and promote environmental best practice around the world.

### **Six months at Barver Moor**

Since construction started last winter, there has been a radical change at Barver Moor from a degraded grass fen used previously for traditional agriculture, to a productive paludiculture site. To learn more about what we have learned in the last six months, [click here.](#)

### **Photography Awards**

Working in wetlands means there is plenty of opportunity for great photographs. Our picture to the left, of students taking peat cores in the Broads National Park, [won an award at the North Sea Region Photo contest.](#)

Thank you for taking the time to read our newsletter. If you would like any further information about the project, please don't hesitate to contact
